

Hello friends,

Few weeks ago I was invited to a prayer meeting in Cape Town at the Mayor's office to pray for the nation of South Africa. Among where pastors and church leaders from different denomination. We saw the move of God as we pour our hearts before the Lord praying for the country's economic stability, fear for God among the leaders, Unity in among Christians and free and fare election next year. Our heart is to see the present of God covering the country from the least to top. And I will invite to keep praying for South Africa. Please don't for get to pray for Youth Alive Mission Camp that will be coming up on the 4th to 10 of January. The camp is for the youths from 13 to 25 of age and our my aim is to restore youthful dignity which has for long been lost due to apartheid, literacy, poor life style etc. God is taking us to a new level, and positive changes have been occurring both in our individual lives and Ministry. I will be leading the camp and hoping to see youths from various part of the world joining us as seek God. It is quite amazing what God is doing lately in South Africa both with those in need and beyond and fortunately for me I have been a part of this transformation force.

His together, Benjamin

Hi Al,

Hope you and your family are doing great. Thanks so much for the materials. Sis. Hazel and I have viewed and loved the introduction and presentation of the materials. It was amazing, why these materials were never available at the time. The box was opened and divided between the NAREPA Ministries and FLAG. NREPA's Pastors from Lofa Montserrado, Bomi and Cape mount Counties were present and part takers of the meeting. Subsequent report will follow as both organizations meet to brainstorm on strategies to further the Abstinence Program.

You have now met my material expectation! Previous funds supported were used to purchase assorted materials, hand outs, allowance for facilitators, transportation to various zones etc., and other fund used to augment office construction. This time around the project has taken a right direction. We are certain that the presentation will suit our African cultural and traditional views in the mist of the environment we find ourselves in. (the project is not limited to the Church). Secondly to have an official ABSTINENCE LAUNCHING PROGRAM IN THE CITY OF MONROVIA. We have TOT workshop photos of about 35 participants covering the game plan and Navigator booklets. The graduates were empowered to teach the abstinence programs in churches, etc. We are asking you to assist us with a DVD Projector to enhance the project. Your program is very fantastic and the answers to longevity.

In God we trust, Pastor John
